記

Chemical Substances Management Rank Guidelines Ver. 8 (For Products):
Level 1 Prohibited Substances

18 Substance Groups*1 (For substance names, refer to the attached sheets.)

- | | |
|--|---|
| 1) Polychlorinated biphenyls (PCB) | 10) Cadmium and its compounds*2 |
| 2) Asbestos*2 | 11) Lead and its compounds*2 |
| 3) Specified organic tin compounds (1)*2
Bis (tributyltin) oxide
Tri-substituted organostannic compounds | 12) Hexavalent chromium compounds*2 |
| 4) Specified organic tin compounds (2)*2, 3
Dibutyltin compounds | 13) Mercury and its compounds*2 |
| 5) Specified organic tin compounds (3)*2, 3
Diocetyl tin compounds | 14) Ozone-depleting substances
(excluding HCFC) *4 |
| 6) Short-chain paraffin chloride (C10-13) | 15) Formaldehyde*2 |
| 7) Specified bromine-based flame retardants (PBB, PBDE) *2 | 16) Perfluoro-octane-sulfonic acid and its salts |
| 8) Azo dye and pigment forming specified amines*2 | 17) Specified benzotriazole |
| 9) Polynaphthalene chloride (number of chlorine 3 or more) | 18) Dimethylfumarate |

Note:

- *1: For regulated items, please refer to "Table 2: Level 1 Prohibited Substances Regulated Items".
 Even if a substance and/or its application is not specified explicitly in the Rank Guidelines, compliance with prohibition or restriction under local laws and regulations is required.
- *2: Regulated values are set according to Chemical Substances Management Rank Guidelines. For more details, refer to the "Table 1: Substance Group List of Level 1 Prohibited Substances." Also, any intentional use of substances is prohibited even when numerical limits are provided (excluding "Specified organic tin compounds (2) Dibutyltin compounds" and "formaldehyde").
- *3: Starting with the Rank Guidelines Ver. 8, "Specified organic tin compounds (2) Dibutyltin compounds" and "Specified organic tin compounds (3) Diocetyl tin compounds" were added.
- *4: The use of "ozone-depleting substances (excluding HCFC)" is also prohibited in production process from the Green Procurement Standards Ver. 5 onwards.

Managed Substances: Reach SVHC

Published SVHC : 53 substances

Regarding the latest substance list, refer to below website:

http://echa.europa.eu/chem_data/authorisation_process/candidate_list_table_en.asp

Note:

If some products, which have been delivered, contain Reach SVHC, we inform accordingly with format "REACH SVHC contain confirmation sheet".
 And more, after submitting this Warranty, when we newly confirm that products contain SVHC, we inform accordingly with format "REACH SVHC contain confirmation sheet".
